PRESS RELEASE

- **DN 3000 MM BUTTERFLY VALVES SUPPLIED FOR CRITICAL FLARE STACK ISOLATION APPLICATION TO A LEADING INTEGRATED STEEL PLANT IN GUJARAT, INDIA**

Thane, 4th September 2025 – CHEMTECH INDUSTRIAL VALVES LTD (CIVL) has successfully manufactured and supplied **DN 3000 MM Double Offset Butterfly Valves** to a leading integrated steel plant in Gujarat, India. These **Critical Valves**, deployed for **Flare Stack Isolation in the Bast Furnace unit**, reinforce CIVL's reputation as a trusted partner for **Large-Diameter, High-Performance Isolation solutions** in demanding industrial applications.

Each valve measures **DN 3000 MM** and weighs an impressive **12 tonnes**, representing an engineering feat in Design, Fabrication, and Quality Assurance.

In such **Critical Isolation Applications**, only a handful of manufacturers possess the Expertise to **deliver**. CIVL secured this prestigious order while competing against reputed multinational Valve Manufacturers, underscoring its **global competitiveness and technical excellence**.

This achievement not only demonstrates CIVL's ability to deliver **World-class, Customized Valve solutions** but also paves the way for **significant opportunities in future large-scale Industrial projects** across Steel, Petrochemical, Power, and Refinery sectors.
